Grief spread through Washington with word that the country's twenty-seventh president and tenth chief justice was about to die. The president and Mrs. Hoover called off their reception to members of the house of representatives, scheduled for tonight. Other social functions likewise were abandoned. The doctors' bulletin desparing that Mr. Taft could survive was read to the house.

Aged 72, Mr. Taft suffered his serious breakdown late in January and resigned from the chief justiceship as a result on February 3. That same day he was brought back to Washington from Asheville, N. C., where had been seeking to recuperate.

He was pronounced "a very ill man" then. For a week or so an improvement in his condition was reported every day. Then the physicians for some time said he was "unchanged." March Is Second to City Hall in Two

NEW YORK, Feb. 27 .- (UN)city hall today, took a mild beating from police and then marched out

two days, the other one occurring in financial district of Wednesday. Today's parade was ineffective from unists standpoint, chiefly because it was inadequately organized.

The communists approached city hall from two sides—one band coming from Broadway and the other from Park row. Handbills had been distributed in the subways last night enlling on all unemployed persons to meet at city hall at 12:30 p. m. to protest to Mayor James J. Walker nst labor conditions.

As the two bands closed in on city hall they found police waiting for them. The communists were driven out of the park as fast as they came in. ne of the paraders raised banners eading: "Feed our starving children" "we want to work or fight." Police tore down the signs.

Several of the communists were clubbed and three women who at-

tempted to make speeches were escorted out of the park by police.

The only person arrested was Rancharged with felonious assault after he fought with a policeman. Neal said he attended a meeting at communist headquarters last night at which he was ordered "to storm city hall."

Delegate Tells League Nation Does Not Believe It Effective.

GENEVA, Switzerland, Feb. 27.—
(UN)—Latin-America no longer will support domination by the great powers and has no further need of Europe, Dr. M. H. Cornejo, of Peru, declared today to the commission of 11 which is seeking to harmonize the Kellogg anti-war pact with the League of Nations covenant.

"It is paither dialoguety and formal and the seeking to harmonize the Kellogg anti-war pact with the League of Nations covenant.

"It is neither diplomats nor jurists who prevent war, but concrete realities," the Peruvian delegate said. "The greatest present reality preventing war is the United States with all its wealth and power. It is the United States that will prevent Europe from making war."

Dr. Cornejo's utterances caused a great stir. He demanded that the covenant be amended so as to permit the league council by a majority instead of a unanimous vote to decide what measures shall be taken to enforce the Kellogg pact. The inference was that the smaller powers, outnumbering the great, did not wish to be restrained by the larger nations in taking steps toward peace.

"Before the war Latin-America accepted the decisions of the great powers," he said, "but the situation now has changed. Latin-America affirms has changed. Latin-America affirms the doctrine of equality of states. We can no longer permit the great powers to dictate what we can and cannot do. The smaller powers must have the same right as the great in reaching

decisions."

Lord Cecil, of England, replied to the Peruvian.

"The council is now composed of 14 nations," he said. "I would ask Dr. Cornejo this: If a majority composed of Cuba, Peru, Venezuela, Serbia, Peland, Spain, Persia, Finland and Canada decided on measures to enforce the Kellogg pact against a minority com-

WHAT TO WEAR THIS SPRING

Development of the oyster fishing beds in Glynn county was in immediate prospect Thursday when Peter S. Twitty, state game and fish commissioner, received a telegram from Senator W. J. Harris advising him that the government had assigned a technical expert to aid in the work.

The expert is expected to report to Brunswick Monday and during the next few weeks will devote his time to making a survey preliminary to transplanting 50,000 to 100,000 bushels of "coon" oysters to barren beds.

His coming to Georgia is the aftermath of plans and work of the state department of game and fish in the past two months.

A survey has been completed on the Glynn county oyster grounds by a practical oyster man and conditions as reported to Mr. Twitty are apparently favorable to the development of the beds.

Georgia is peculiarly fortunate, Mr. Twitty said in that its coasts have

chity rayorable to the development of the beds.

Georgia is peculiarly fortunate, Mr. Twitty said, in that its coasts have millions of "coon" oysters, unfit for eating, but which after transplanting develop into an edible oyster. The coastal waters, Mr. Twitty states, also abound in ideal beds, which are at present barren.

The oysters which are transplanted will be protected for a number of years, and with their natural increase and additional plantings, it is thought that within the course of a few years a great advance in the oyster fisheries can be made.

### Jeffries To Set **Election Date Soon**

A date for the election of clerk of Fulton superior court to fill the unexpired term of the late Thomas G. Miller will be set by Judge Thomas H. Jeffries, ordinary of Fulton county, within a few days, it was indicated Thursday. Judge Jeffries is out of the city, but is expected to return

Monday, at which time he will probably take up the matter of calling the special election.

James M. George, former marshal of municipal court of Atlanta, who was appointed Wednesday by the Fulton county commission to serve as clerk until the special election is held, Thursday was receiving the congratulations of hundreds of friends on his appointment.

tions of hundreds of friends on his appointment.

In addition to Mr. George, who is a raded as a certain candidate for the clerkship in the special election, a number of other Atlantans have been mentioned as considering the race. Among these are John Dean Steward, W. Tom Winn, J. Walter Simmons and A. C. Minhinnett, Jr.

Mr. Miller had served half of his second four-year term at the time of his death last Saturday.

### Girls' High Class To Plan Reunion

Plans for the tenth anniversary reunion of the class of 1920 of the Girls' High school will be laid at a luncheon to be held at 1:30 o'clock Saturday afternoon at Parlor F, Pied-mont hotel, it was announced Thurs-day

day.

The reunion will be held in May and Mrs. W. W. Booth, chairman of the committee in charge of arrangements, has requested all former members of the class to be present and to co-operate in the effort to make the affair one of the best ever staged at the institution.

"Many of the girls are now married.

"Many of the girls are now married and have families." Mrs. Booth said.

"The affair should be interesting and the former members of the class will find it beneficial to gather for the reunion. We are planning to make the event a memorable one."

### Indicted Man Freed As Negro Confesses

Rogers Sanford, negro, Thursday was released from Fulton Tower on his own bond following the alleged confession by C. C. Hendricks, negro, to the murder of Sam Nissen,

gro, to the murder of Sam Nissen, proprietor of a grocery store at Fulton and Connally streets on January 10. Sanford was indicted for the murder of Nissen by the grand jury recently, and his trial had been set for March 11.

Attorney Jo Ewing, representing Sanford, appeared at the solicitor general's office Thursday afternoon and obtained an order for his client's release. Attorney Ewing said that he had more than 15 witnesses who would testify as to Sanford's presence elsewhere at the time of the shooting, and that the alleged identification of Sanford as a man seen in the store at the time of the shooting was a mistake.

### Rain, Warmer Weather Menu For City Today

Increasing cloudiness, followed by showers late this afternoon and accompanied by a mild temperature rise, is the weather menu for Atlanta today, according to C. F. von Herrmann, local meteorologist.

A slight chilliness in the atmosphere Thursday morning, when the mercury sank to 41, more than 20 degrees below Wednesday's minimum, disappeared rapidly during the day as clear skies and a beaming sun produced a maximum for the day of 63. Today's extremes are expected to be in the neighborhood of 48 and 68.

The threatened rain will be of the "shower" variety, the bureau chief explained, and will in all probability continue through Saturday. The Washington forecast for Georgia is the same as the local prediction.

### Atlanta Business Leaders Discuss Real Estate Drive WILL STAGE CAMPAIGN

Value of Publicity.

F. O. Watkins, of Decatur, declared that the psychological moment for a home-owning campaign has arrived and that "dawn is about to break for the business world." He stressed, too. the importance of educational publicity.

Business is better in Atlanta than in most American cities, Ivan Allen declared, citing Birmingham and Detroit as contrasts. The condition in Chicago, a bankruptcy city, came in for brief mention during the discussion. A well-planned advertising campaign, Mr. Allen said, would bring

### Poker Alice, Girl Gambler :: ASSOCIATE OF WILD BILL HICKOK AND DEADWOOD DICK :: Of Golden West, Is Dead

From the Pecos to the Colorado,

RAPID CITY, S. D., Feb. 27.—(P) through Goldfields, Tonopah, and "Poker Alice" Tubbs, 77, picturesque character of the old west where she was a fixture in the mining camps of the gold rush era died today after an operation.

The Posse to the Coloredo

Associates of the "big shots" of border days, Alice numbered among her acquaintances "Wild Bill" Hickok, "Calamity Jane," "Deadwood Dick," "Tex" Rickard and others who took their whisky neat, their cards high.

took their whisky neat, their cards high.

As she was deft at dealing cards, so was she equally agile at handling the six-gin the only law recognized in the heetic days of Tombstone, Carson City, Dodge City and on the Brazos.

Born in Devonshire, England, Alice came with her folks to America and went into the gold and copper mining country. There she married a mining engineer while she was in her early twenties. It was from him that she learned the relative values of a straight flush, in competition with aces or tens full. Her ability with the cards or over a roulette wheel attracted the proprietors of the gambling houses who bid for her favors as a dealer. Bearded miners "fresh from the creeks, dog dirty and loaded for bear," swarmed around the table when Alice dealt the cards. It is the tradition of the country that disputed bets were settled by a glare from Alice where nothing less than pistols would have sufficed had a man dealt.

Beaten back with the frontier as the Santa Fe and other roads pushed westward, Alice followed the trails to the north, then back to the east.

The construction of two concrete bridges on the Taft to Dawson road, and a small bridge on the Dublin to Wrightsville road, were also approved. The total estimated cost of the four projects is \$250,000.

B. P. McWhorter, state highway engineer, will leave this morning for Montgomery for a conference with Mr. Swaim It is expected that an announcement of other projects to be included in the letting will be made upon his return Monday.

The estimated costs of the projects submitted to the federal engineers for approval is \$2,800,000. Thursday the highway board approved another \$1,000,000 of projects which will also be submitted to the federal engineers.

The position of assistant operators to motion picture operators will be abolished Monday if council concurs in a recommendation made Thursday aft-

a recommendation made Thursday afternoon by the electric lights committee of council.

Pat Hendricks, superintendent of electrical affairs, declared that assistants are not needed under latest developments in the industry and held that any man permitted in the booths to operate machines should be a qualified operator.

Permission was given the Southern Bell Telephone and Telegraph Company to install half a dozen whiteway poles along Auburn arenue in front of the new headquarters of the concern at Auburn and Ivy street.

Under the arrangement, the company will pay for the poles but the borough will furnish current, amounting to about \$195 for the year.

The Electro Construction Company was given the right to keep four No. 14 electrical wires in an electrical conduit on the second floor of the new \$1,000,000 Atlanta city hall in order to prevent tearing out concrete columns and ceilings.

new \$1,000,000 Atlanta city hall in order to prevent tearing out concrete columns and ceilings.

Provisions of the national electrical code permit four wires but an ordinance of the borough of Atlanta provides that only three shall be installed in a one-half inch conduit. The contract with the company left it optional with the company left it optional with the company as to whether the local or the national codes should be followed, it was contended. George E. Bradford, president of the company, declared that other violations of specifications had been corrected but that this one would materially weaken the building and not give any better service.

### College Placement Work Given Praise

Georgia's forward movement in college placement and personnel work were called to the attention of the National Association of Placement and Personnel Officers at its convention in Atlantic City, according to E. A. Lowe, assistant to the chancellor of the University of Georgia, who stopped over in Atlanta Thursday en route from the convention, where he, Cator

from the convention, where he, Cator Woolford and Leslie Patton, of Emory, have been in attendance for the past week.

"Northern educators were interested to find that businessmen were identified with the Georgia college placement office, and were seeking to draw the colleges and industry into closer contact," Mr. Lowe said. "They were interested in the unique plan of the placement office, which is the only organization in the country that is a clearing house for employers and graduates of all colleges in the state. Dr. W. V. Bingham, of the personn recognition of the work of the Georgia organization introduced Mr. Woolford, its founder, and called attention to the outstanding work of the organization in placing graduates in Georgia business."

Colonel F. J. Paxon, who was in Atlantic City during the convention, invited the executive committee, composed of representatives from 10 national associations of personnel, guidance and placement leaders, to meet in Atlanta during April at which time the national convention city for 1931 will be named. Decision will be announced later.

aimed at a three-power treaty instead of five.

It was a busy day for the Americans, beginning in the early morning with a meeting called by Henry L. Stimson, to discuss the American position. Senator Reed, who is specializing on Far Eastern affairs, then called on Ambassador Matsudaira of Japan for a lengthy conference.

On his return to American head-quarters he was joined by Colonel Stimson and J. Theodore Marriner, diplomatic adviser, and early this afternoon the three went to the house of commons to confer with Mr. MacDonald. Meanwhile, Ambassador Matsudaira met the other Japanese delegates. Later Senator Reed paid a call on the Japanese ambassador.

TARDIEU UNABLE TO FORM CABINET.

TO FORM CARINET.

PARIS. Feb. 27.—(P)—The gap between the policies of the deadlocked right and left parties in the French chamber of deputies widened tody as former Premier Andre Tardieu attempted to re-assemble a government to succeed the short-lived Chautemps calinet.

The defeat of Chautemps still ranks in the minds of the powerful left groups, particularly the radical-socialists, who are the largest single party in the chamber, and their opposition became open and decisive today.

Working with the aim of forming a "wide concentration cabinet," M. Tardieu attempted to bring the radical socialists into the fold by offering the ministry of foreign affairs to former President £douard Herriot. Herriot, however, holding M. Tardieu responsible for the defeat of Camille Chautemps and backed by his party's refusal to cede the ministry of the interior to another party, refused the post and pledged his entire party against Tardieu.

### DOMINICAN TROUBLE

SAN DOMINGO, Feb. 27 .- (A)-The immediate political future of the Dominican republic was discussed to-day by supporters of President Horacio Vasquez and the leaders of the insurgents that completed their virtual seizure of power by marching

into the capital yesterday.

The leaders of the insurgents met General Rafael Trujillo, loyal commander of the fortress of Ozama, at the American legation and attempted to reach an agreement on the choice of a provisional president to guarantee unbiased presidential elections in May.

to reach an agreement on the choice of a provisional president to guarantee unbiased presidential elections in May.

The resignation of President Vasquez is practically taken for granted, and is awaiting only the choice of a provisional successor. Vice President Jose Alfonseca has officially resigned. During today's conference Senor Angel Morales, former minister of foreign affairs and now Dominican minister in Washington, received strong support for the provisional presidency. Later General Trujillo came to the front as a possibility for the office. The two chiefs of the insurgent movement, General Rafael Estrella Urena and Desiderio Arias, who are holding Santo Domingo with 2,000 followers, apparently have no designs upon it.

A session of the national assembly called for this morning by President Vasquez, had to be adjourned when it was found to be impossible to get the members together. The president lad to ask the foreign diplomatic and consular officials whom he had invited to be present to retire.

WASHINGTON, Feb. 27.—(P)—

WASHINGTON, Feb. 27.—(P)—Charles B. Curtis, American minister to the Dominican Republic, notified the state department foday that he had been informed by the British minister of British plans to send the Wistaria to Santo Domingo.

It was understood at the state department that no landing from the vessel was planned and that the boat, which cruises regularly through the Caribbean, is being used only as a precautionary measure in case members of the British legation should desire to leave the island.

The change in Emory's curriculum under the junior-senior college system is in line with the inauguration of the enlarged athletic program, Dr. Cox explained. Next year the university will have six graduate coaches, working under the supervision of a physical director, to direct various interclass and interschool sports on the campus. All physically fit freshnien next year will be required to devote to athleties the exme time now taken by military training.

The unit of the R. O. T. C., which has been at Emory since 1919, will be discontinued in June. It has been regarded all along, Dr. Cox said, as a temporary arrangement "until better provisions could be made for physical training."

\*\*Many students of government hold that the only hope for American cities is the adoption of a commission or a city manager plan of government. In many cities such plans have met with marked success, while numerous cities with the mayor-council plan are on the verge of bank-ruptcy or are in the same desperate financial straits which face Atlanta. All citizens should face the situation courageously and attempt to find the proper solution to our difficulties. Bitter denunciation and rash criticism will avail us nothing. Surely 1.e. This company, which has just been started in Bucharest, is called "The Inheritance Research Company, Ltd," and the director has stated to a journalist that the first effort of the company will be to trace the heirs to several gigantic American fortunes. One of these, the \$140,000,000 Horovitz inheritance, has lain in San Francisco since 1888, as none of the heirs could prove a sufficient title to it. The president of the Vienna Horovitz, who claims to be a direct descendant of the bishop, has been engaged in reconstructing a family tree. According to his researches Bishop Horovitz was a Jew-lish boy, who emigrated from Pressburg about the year 1830. As the bishop had no children, his fortune should fall to his brother Charles, whose direct descendant the president of the Vienna Horovitz claims to be, and to his two sisters, whose married names were respectively Oberbrat and Steinhardt, but of whose descendants all trace has been lost. I saw a lady buy a 3-pound chicken in a chain store, where the chicken was advertised at 35 cents a pound dressed. She had the clerk weigh the waste (for "dressed" in such stores means merely the feathers removed). The waste weighed just a pound, so she paid 521-2 cents a pound for the chicken. On complaining to the board of health I receive an answer assuring me that cold storage fowl are always sold with all the offal intact, as the meat keeps better that way.

LOOKING AND LISTENING

The Great Opportunity for Young Men in

the Political Affairs of Georgia.

BY SAM W. SMALL

Within my lifetime there has been but one other time in the history of Georgia when young men of brains, intellect and ambition had a better opportunity to make for thems a clves distinguished careers in the political service of the state. That other time was following the reconstruction era and when the elder statesmen who had survived the War Between the States were commencing to die out of the southern and state pictures.

Then there was a wide-open opportunity for the younger men of information and capacity to step into the shoes of the departed genro, take up the guerdons of public welfare, and climb to positions of power and fame.

New Occasions Make New Leaders.

New Occasions Make New Leaders.

We had brave and beloved generals, ex-governors and ex-congressmen to whom we gladly and generously awarded the higher posts in state and federal affairs. They had impover-ished themselves for our sake and they needed the refuge and emoluments of such offices. They filled them with distinguished ability and largely re-gained the prestige of southern states-

Of those were Stephens, Ben Hill,

of other men easily remembered.

But the new occasions in the states
brought to the front many new leaders who climbed from state service.

The Heaviest Southern Loss.

Then there was something very undignified in his flight to Copenhagen in a false beard and blue spectacles. But the spell of exile did anything but sober him, for he was even more foolish when he came back. Her whole method of painting Ludendorff's portrait shows that Frau Margarethe has kept her head, whereas events, quite unconnected with her, show that the general lost his. The superman, in fact, saw red. The book certainly disproves the theory that woman and hysteria are synonymous.

We have lost popular interest in the general welfare of the state and become a generation of pothunters for rations out of the state treasury.

The new occasions which followed the recovery of the southern states to home rule and the urgent need to provide them with honest, stable and conservative government called for new leaders within the states.

Another Highway Marker to Memory of "Georgia War Queen" Dedicated by State D.A.R. Leaders

WAYCROSS, Ga., reb. 27 .- (A)-The Georgia D. A. R. today dedicated other monument, one of nine erected to the memory of Nancy Hart, "Georgia war queen." whose beauty or ack of it is a moot question, but who single handed captured six tories.

The granite monument here stands at the intersection of State street and Plant avenue, marking the Nancy Hart highway. The ceremonies were in charge of the Jonathan Bryan and Lyman Hall chapters of the Daughters of the American Revolution. Attending were several D. A. R. leaders of the state.

The exercises were held at the Atlantic Coast Line Railroad Y. M. C. A. auditorium, beginning at 3:30 o'clock, and later the unveiling took place at the site of the marker.

Among the state officers who were guests of honor were Mrs. H. Fay Gaffney, Columbus, regent for the state of Georgia: Mrs. J. L. Massey, Hartwell; Mrs. Herbert M. Franklin, Tennille, and others. Mrs. Massey and Mrs. Franklin are co-chairmen of the Nancy Hart highway committee.

Modern historians have softened her features and have enshrined her with womanly attributes missing in early descriptions.

Both schools, however, agree that she was a dauntless, resourceful woman, whose exploits caused all who knew her to regard her with awe.

The granite monument, one of nine marking the Nancy Hart highway, was unveiled here today with simple ceremonies, at which the deeds of the pioneer Georgia woman were recounted.

### SHOWN BY FARMERS

Agriculture Workers in Baxley Section Get Earliest Start in Years.

BAXLEY, Ga., Feb. 27 .- Farmers of this section have attained the earliest start this season in several years, according to a statement made by County Agent L. C. Walker Wed-

Mr. Walker, in his statement, called attention to the steady improvement in reforestation, tobacco production, hog marketing and sweet potato plant raising made by the farmers of the Baxley territory, along with the readjustment in cotton growing. The income from forest products leads all agricultural returns in the county, according to County Agent Walker, with cotton, tobacco and sweet pota-

During the past marketing season arrangements were made by the county agent in co-operation with the local people for establishing a co-operative hog sale. Pens have been built, committee selected and two successful sales held so far. This section is naturally adapted to hog raising and with satisfactory marketing facilities it is expected that farmers will increase their production. Of Columbus, Ga.

The guests were honored tonight with a banquet at the Hotel Ware.
Committees in charge of the arrangements were: Miss Claudia Little, Mrs. C. H. Harley, Mrs. P. N. Harley, Sr., and Mrs. R. P. Izlar, representing the Jonathan Bryan chapter, of which Mrs. H. S. Redding is regent; Mrs. E. D. Dimmock, Mrs. H. Burnet, Mrs. W. C. Parker, Mrs. W. W. Sharpe, Sr., Mrs. H. A. Stallings and Mrs. Q. L. Garrett, representing the Lyman Hall chapter, of which Mrs. H. J. Carswell is regent.

How Nancy Hart won Fame.

Nancy Hart was described by contemporaries as a woman of Patagonian stature, marked by nature with prominent features, "a hard swearer, cross-eyed and cross-grained, but nevertheless a sharpshooter."

Modern historians have softened her features and have enshrined her with womanly attributes missing in early

readjustment made by farmers of this section in meeting a situation unparalleled in the history of the nation's agriculture. With the coming of the boll weevil the great Sea Island cotton industry was destroyed and with the deflation following the war farmers were called on to meet new conditions and bring into existence new sources of income at a time when conditions were very unfavorable. He showed that this readjustment had been accomplished through following a safe and sound program of applying scientific thought to new enterprises and co-ordinating marketing the production.

### Noted Canadian Thinks U. S. LOWNDES COUNTIAN Will Eventually Join League PLANTS COTTON EARLY

MACON, Ga., Feb. 27.—(P)—Sir Herbert Ames, distinguished Canadian who was treasurer of the League of Nations for seven years, asserted here today that he believed the United States would join the league but perhaps not for 20 years. He addressed the conference on international relations at Wesleyan college tonight, and tomorrow will make a talk to the Mercer student body.

"The United States will find some day," he said, "that the league does not contain those dangerous elements they are afraid of. Joining will not be brought about by propaganda, and it may be even 15 or 20 years before the United States joins. The more the league ceases to be an organization of the enforcement of sanctions and becomes an organization along nonpolitical lines, the greater will be the United States co-operation with the league."

Sir Herbert said he had no criticism to offer on America staying out of the league for "she's losing as much the

Speeding Up Growing Season Seen as Boon to Industry by T. J. Davis.

VALDOSTA, Ga., Feb. 27 .- T. J. Davis, owner and operator of Davis Farms, which are located in Lowndes county, northeast of Valdosta, is the 1930 leader in cotton planting.

Five hundred acres of cotton will be planted on Davis Farms this year and already a number of acres have been planted, the work starting this week. This is believed to be the earliest cotton planting schedule ever

started in Lowndes county. Mr. Da-

vis takes the position that after the

cotton comes up if there is no cold weather he will be several weeks ahead of the boll weevil; if the plants do get killed he will have an even start with other planters and the boll weevil.

Last season Mr. Davis planted an experimental patch of cotton, there being 34 measured acres in the plot. being 34 measured acres in the plot. From this area a total of 54 average weight bales of lint cotton were gathered. The experiment was to test out a special brand of fertilizer and the quantity per acre as well as special plans of cultivation. The experiment was regarded as highly successful and the entire 500 acres of cotton land will be planted on the same plan as the experimental area last year.

year. he yield was more than double the average per acre for this section of the cotton producing territory, and Mr. Davis is of the opinion that by Mr. Davis is of the opinion that by speeding up the growing season and pushing the cotton with special fertilizer the cost of production is materially lowered and profits increased correspondingly.

Water Plant, Deadly

To Life in Lakes,

Found at Valdosta

VALDOSTA, Ga., Feb. 27.—A water plant new to this portion of the country and deadly to all life in lakes where it appears has just been discovered on one of the large pools on W. A. Burdett's estate north of this city.

About two weeks ago Mr. Burdette noticed a few reddish spots about over the pool, but thought it was some vegetable matter blown down and gave it no heed.

Early this week, returning to the pool he saw that its entire surface was a very dark red color, the substance appearing rather thick and gummy. Close inspection showed that water bugs, tadpoles, frogs and other life in the pool was gasping for air. The denizens of the pool were making franti: efforts to get noses through the scum for air.

Local scientists, including Professor Everett, of Emory Junior college, and Dr. E. D. King, were called to diagnose the situation. Nothing of the kind has ever been found in this part of the state before, and no one understands how it happened to strike on the pool. There are several other pools on a chain evidently connected with this particular one, but none of them show any signs of the plant.

In the other seven pools it is stated that fish of practically all species abound, but none has been found in the Burdette pool. The pools are on an average about 450 yards apart, but they vary in diameter, some of them being smaller than the one in them being smaller than the one in which this new plant abounds.

be increased by \$736,000 a year under a new schedule of freight rates, and the state department of agriculture will make formal protest before the

interstate commerce commission, it was announced Thursday.

The state department was notified last December of the proposed increase. At that time it was thought that a rule requiring watermelons to be packed in excelsior instead of straw also would be promulgated, but this was later dropped.

A protest was made to the railroads against the increase of tariffs, but this has been denied, according to another notice received by the department. The new rates will be published shortly, after which protests against them may be lodged with the federal railroad commission.

Estimating the additional costs on the freight of Georgia melons, officials at the state department said that the average of rates per carload would be increased from \$119.92 to \$155.17. On the basis of last year's erop of 21,000 cars, the aggregate increase would be \$765,385.

New, time-saving devices, new simplified recipes, modern methods, have made women realize that they really like to cook.

And a whole lot of them have concluded they like to cook best with Snowdrift, which is modern too! It's so pure and snowy-white to dip into . . . so easy to mix . . . and it makes such good things to eat, baked things and fried things, doughnuts and cake. Easy to understand, of course, when you know that Snowdrift is made from the same fine oil we use in making Wesson Oil.

You're probably familiar already with Wesson Oil . . . that clearest and blandest of salad oils, which can be mixed in no time into the most delectable of Mayonnaise or French Dryssing.

### Can You Do Your Housework?

If you are not as well as you want to be, if you are weak, nervous or rundown, give Lydia E. Pinkham's Vegetable Compound a fair trial. Take at least three bottles. It will tone up your whole system and help you to eat better, sleep better and feel better.

Mrs. Marie Vriesenga, 2002 Lexington Ave., New York, New York.

"My work is keeping a rooming house in New York. I was ak and tired and didn't seem to feel well at all. Some friends told me about Lydia E. Pink-ham's Vegetable Compound and I took it four times a day. It has helped me very much. I feel better in all ways now."

—Hooty the Owl.

Old Man Coyote a long time ago made a discovery. He discovered that one of the surest ways of finding out things was to follow the scent of other people. Then he would find out whatever they found out in addition to what he might find out for himself. So when Old Man Coyote, with his wonderful nose, picked up the scent of Farmer Brown's Boy over in the Green Forest, he began to follow him. "I wonder what he's doing over here," thought Old Man Coyote. "It is always well to know what one's neighbors are doing. I believe I'll follow his trail to find out what Farmer Brown's Boy is about. It probably does not concern me at all, but the knowledge will not hurt me."

So Old Man Coyote put his nose to -Hooty the Owl.

So Old Man Coyote put his nose to the ground, sniffed, and then started So Old Man Coyote put his nose to the ground, sniffed, and then started along. So it was that in time he came straight to the place where Hooty the Owl and Mrs. Hooty were raising their family—one baby up in the nest in a tree and one on the ground where he had fallen. Now it happened that just as Old Man Coyote was approaching, Hooty, flying rather low, passed him on his eyes. Old Man Coyote followed Hooty right up to that nest. He sat down a little way from the nest. With his eyes. Old Man Coyote followed Hooty right up to that nest. He sat down a little way from the nest. Then Mrs. Hooty arrived. Found in Egypt By Expedition

PHILADELPHIA. Feb. 27.—(P)—The University of Pennsylvania museum announced today that it has received a cablegram stating that one of the largest collections of coffins ever found in one tomb in Egypt has been unearthed by the university's expedition at Meydum.

The coffins, all of which contain mummies, range from 2,200 years to nearly 4,000 years in age, it was stated.

"Nearly 30 coffins and mummie

"Nearly 30 coffins and mummies were found in the new tomb," the cablegram from Alan Rowe, field director of the expedition stated. "One coffin contains mummy covered with head network over which is a golden flying scarab and a gilded mask. Another coffin dates from the twelfth dynasty, about 2000 B. C., and is covered with texts. Now opening other great tombs."

"The tomb," Rowe continued, "seems to be really a cache of coffins and mummies which had been collected together and stored there for some reason or other. From the bottom of a deep pit, eight chambers radiate in various directions. About five of these chambers are piled ceiling-high with broken and unbroken coffins.

high with broken and unbroken coffins.

"The cache has apparently never been robbed, the uppermost coffins which were broken having been damaged only by falls of rock from the ceiling. This is the biggest find of coffins I have ever seen in Egypt and is of the greatest importance. In fact it is the biggest collection of Ptolemaic coffins that I have ever heard of being found in one tomb.

"The coffins are typical of those belonging to the local people of the time, and it is of course yet too early to say what they contain."

Many rare amulets, pendants, great quantities of beads have been recovered. The tomb will be guarded day and night until it is cleared out.

erate prisons.

In 1887 he led in organizing the American Copyright League and became its secretary during the contest for international copyrights that resulted in the copyright bill of March. 1891. That year he was also decorated with the cross of the Legion of Honor of France. Mr. Putnam also was founder of the English-speaking union in the United States.

Mr. Putnam, despite his illness, had kept in touch with his offices until last Thursday, two days ago he lapsed into a coma.

George Palmer Putnam, a nephew, who announced the death, said the funeral would be private, but that arrangements had not been made.

The striking students, representing nearly the entire enrollment of Manila North High school, walked out claim-ing that Miss Brummitt "time and again has branded Filipinos as sav-ages, imbeciles, idiots and contemptible cads," which she denied.

### BRAZILIAN ELECTION

MONTEVIDEO, Urugay, Feb. 27. (P)-Advices received here from the Brazilian frontier tell of considerable political agitation and friction in the state of Rio Grande do Sul growing out of the campaign for election of a Brazilian president March 1.

A clash occurred near Bage between followers of the Candidates Julio Presters—script president of the

lio Prestes—actual president of the state of Rio Grande do Sul—and Getulio Vargas. Nine of the combatants were wounded seriously.

In Santa Ana federal troops arrested 4 sergeants in Prestes' forces, and in Santa Maria nine persons were accused of open revolutionary propaganda.

Southern Executive and LOUIE D. NEWTON General Discuss Location of Atlanta's New

WASHINGTON, Feb. 27.—(Special.)—Marked progress toward the final selection of a site for the new Atlanta postoffice building was made as the result of a long conference this afternoon between R. B. Pegram, vice president of the Southern railway and president of the Atlanta Terminal Company, and officials of the postoffice department, according to a statement issued to a Constitution representative by Fourth Assistant Postmaster-General John W. Philp.

The purpose of today's conference was especially to discuss the desire of the department with reference to overhead conveyors from various sites to the Terminal station and as to whether the government could secure the space deemed necessary.

MACON, Ga., Feb. 27.—(P)—Mercer University's board of trustees, at least of university in perfected its endowment organization, through the means of which it hopes that the plans as agreed upon at the last meeting of the Georgia Baptist overwheather of the space of today's conference was especially to discuss the desire of the department with reference to overhead conveyors from various sites to the Terminal station and as to whether the government could secure the space deemed necessary.

to the Terminal station and as to whether the government could secure the space deemed necessary.

"While we did not come to a defi-nite understanding," declared Mr. Philp, "our long conference this aft-ernoon marked another step forward toward final solution of the difficult problem we are faced with in At-lanta.

"In our conference all phases of the situation were discussed, and the accessibility and advantages of all sites were thoroughly gone into. We especially discussed with Mr. Pegram the matter of space in the Terminal station and of conveyor rights from several different sites."

when pressed for a statement as to whether any definite agreement had been reached. Mr. Philp called attention to the fact that both he and Mr. Pegram were merely representatives of boards and before anything definite could be announced it would be necessary any conclusions reached to be laid before the respective boards for final action. Mr. Philp stated to be laid before the respective boards for final action. Mr. Philp stated to be laid before the respective boards for final action. Mr. Philp stated to be laid before the respective boards for final action at this time but predicted that definite announcement concerning the results of today's condicted that definite announcement concerning the results of today's conference would be forthcoming within a week or ten days, after the details had been laid before the boards.

department.

While Mr. Philp specifically pointed out that all sites had been discussed with Mr. Pegram at this aftermoon's conference, it is believed that most of the discussion concerned conveyor rights from the Central of Georgia site on the viaduct and it is felt that it is very probable that an agreement was practically reached that was satisfactory to the government, notsatisfactory to the government, not-withstanding the fact that Mr. Philp withstanding the fact that Mr. Philp was careful to say that no definite conclusion had been arrived at. It is thought possible that the necessity for further negotiations with the Central of Georgia regarding the purchase of the site may have caused this attitude on the part of the postoffice department.

At any rate, there is no questioning the fact that as a result of today's conference a definite step toward an early announcement as to the site of the new building was accomplished. The matter of expense and the desire of the department to give Atlanta a new postoffice building which would be in every way not only a credit to the city but fit into the requirements of the department, has made the situa-tion the most difficult now being faced

blinded me for a moment. Then the rumblings of fresh thunder began, and there was a moment's peace. The door was closed behind me and I advanced towards the table, but at my accustomed chair I stopped short in amazement. It seemed impossible that this cowering figure was Martin Hews.

"Don't look at me as though I had "Don't look at me as though I had "Owston will be with you. He is just the man you want for this Job. You will then act. Don't hesitate. Tonight."

His tiny forefinger shot out towards the wall. Immediately opposite him

"That was Joseph?" he gasped.

"Joseph beyond a doubt," I answered. "He had been there. So, I believe, had your niece."

"What's the next move, Major?"

"Scotland Yard has got the gang pretty well surrounded, sir," I told him. "They are going for them at once-perhaps tonight. That's why Joseph didn't mind so much his East End hiding places being given away. Inspector Bloor's been working cautiously, but street by street, house by house almost, he's got them where he wants them. They are cornered down there, and Joseph knows it."

Martin Hews' eyes glistened with hate.

Martin Hews' eyes glistened with hate.

"If I were a man like others." he muttered, "I'd make myself like one of these accursed wolves. I'd creep from street to street, from hiding place; I'd beg and steal and lie; I'd so to prison and come out again. I'd find Joseph."

One of the telephones on the desk tinkled gently. I obeyed Hews' gesture, took up the receiver and listened.

"Isaacs is speaking from Grafton street—urgent, he says." I announced.
There was a sparkle in Martin Hews' hard, round eyes as he took the receiver from me. His expression as he bent over the instrument was almost ecstatic.

"Listen, Isaacs," he said, when he had heard all the other had to recount.

# COTTON--STOCKS--BONDS--GRAIN--LIVE STOCK BOND TRADING SPREADS OUT SLIGHTLY IN MOST ACTIVE SESSION OF WEEK GOVERNMENT MAY AID

CHICAGO, Feb. 27.—(P)—The federal government has offered the American livestock grower a chance to participate, like the grain, wool and cotton growers, in the farm board's stabilization program.

James C. Stone, vice chairman of the farm board, outlined the proposal to representatives of the 25 livestock co-operatives who attended a meeting for that purpose yesterday. He said organization could be effected as soon as the plan is ratified by directors sociations.

Co-operatives did a total business.

organization could be effected as soon as the plan is ratified by directors of the livestock co-operative sales associations.

Co-operatives did a total business of \$300,000,000 last year, Stone pointed out, ratification of the proposal is the co-operatives.

Londer the farm board plan, a \$1.000,000 national livestock marketing association would be established to co-ordinate and control sales and standardize grades.

Additional financing would be effected through a subsidiary, a national feeder and finance corporation, capitalized at \$5,000,000 and able to build its credit to \$50,000,000 through regional credit corporations.

Two other subsidiaries would be a national livestock publishing association, capitalized at \$110,000, and a national order buying company, to fill orders from packers.

Stock of the feeder and finance corporation, consisting of 50,000 shares at \$100 cach, would be acquired by the National Marketing Association, under the farm board, plan, with money borrowed from the board.

In turn, the feeder subsidiary would acquire the stock of the regional credit companies; the latter, then, would furnish a line of credit.

The feeder corporation, the farm board outlined, would be barred from speculating in feeder stock, being limited to handling orders for member associations and individuals.

NEW YORK, Feb. 27.—Yesterday's sharp rally was further extended in today's session with motion picture, motor and electrical equipment issues making a particularly strong showing. The last hour witnessed a general disposition toward profittaking with the result that the day's best prices were considerably shaded.

Aside from the further raily in agricultural commodity prices, outside infinences were negligible. Motion picture issues, outstanding in today's market, despite their reasonable possibilities. Particularly to be favored in this group are Paramount and Warner Bros., but the more speculative Radio-Keith holds attractive possibilities in view of the sharply improving trend in carnings with the prospect that its first quarter net will equal that of all of last year.

JACKSON BROS., BOESEL & CO.

NEW YORK, Feb. 27.—Barring irregularities caused by evening up speculative accounts, we look for a continuation of the stock market advance. Our only criticism of the current recovery is that it has been too rapid. With the elimination of many abort accounts there will naturally be a certain amount of hesitancy on the part of constructive interests to follow up rallies, but on moderate reactions we look for the same strong support that has been in evidence since the first of the year. We think renewal of professional offerings at current levels will make little impression on the public and will serve to atrengthen the technical position. An important buil point in favor of an extension of the advance was the case in whic Steel common made up its dividend Wednesday when buying activities were in the ascendancy. Strength in Steel. Bethlehem and other representative steel issues, is in line with our opinion that the temporary flattening out of buying of steel products is legical in view of the rapid recovery of the industry since the first of the year.

FERNER & BEANE.

FENNER & BEANE.

NEW YORK, Feb. 27.—There was more to tamina to the cotton market today, for while values ruled somewhat lower in early trading in response to easier cables than to the continuation of the was good support on the dip, and good buying continued thereafter. Stimulating features were higher wheat prospects for less favorable weather inland, reports of a better spot demand locally, claim of the want of rain in west Texas, a rumor that a Pacific coast pool was buying cotton, and a rumer that southern senators will ask the farm board agents to support cotton in view of the raily in wheat. Liverpool cabled: "Bombay sold, Local shorts covered and trade called. Manchester reports: Cloth and yarn business slow in developing. Small sales at Shanghai auctions at easier prices."

Washington advised: The federal farm board, in the face of sharp protests from independent grain dealers, stood solidly upon its policy of assistance for the cooperatives only.

WEST PALM BEACH, Fla. Feb. 27.—(P)—Whether George W. Moore, of this city. will be indicted on charges of first degree murder for the slaying of F. R. Patterson and Robert K. Moncure, prohibition agents on January 18, is expected to be decided by the grand jury to be impanded Thesday for a new term of circuit court.

Moore is under two charges of first degree murder, one for killing Moncure, and is at liberty under \$20.000 bond, \$10,000 in each case. He fatally shot the pair while they were engaged in a raid on his home here.

A coroner's jury, after an exhaustive inquiry into the shootings, returned a verdict holding that Moore committed murder in the killing of the two men. Later, the wildow of Mooncure swore out the warrants charging him with first degree murder. Moore waived preliminary hearing before Justice T. M. Rickards and was bound over to the grand jury.

Harry Gamage, head football coach at University of Kenis just one of a number of gridiron teachers here to ratch the progress of the conference basketball tournament. Harry Mehre and Frank Thomas came over from

Athens last night, having called a halt in their spring football practice for the occasion. Other football specialists who secretly do not care a lot

about basketball will be on hand this morning. "Why do you come down every year for this show?"

I asked Coach Gamage yesterday.
"Oh, to talk football," replied Mr. Gamage pleas-

The gridiron future of the Southern conference football will be all settled before the clock has turned again. If you want to glean all the dope on next fall's activities come to the tournament and keep both ears open.

### FIVE QUARTERBACKS.

"Basketball is a queer game," Harry Gamage says by way doing a little experting. "Every man a fast thinker on a basketball team. "Every man must be quick witted

"One smart quarterback sometimes can carry along a whole dumb football team and make them look pretty ood. But a basketball team must have five 'quarter-acks' in action at once.

'The game demands a fast thinker in every position all the time. One basketball player given to lapses in alertness can wreck the smart playing of four others."

### TOURNAMENT IS SUDDEN.

Coach John Mauer, of Kentucky, likes to pretend his seaompleted when he comes to the tournament rather than g all his hopes on the final competition.

n a given night any basketball team can beat any other he says. "A great basketball team is liable to have one the any time.

Many believed the story was a fantasy. It was absolutely true; I was pledged to keep the real names secret. New cames a letter from the Man in Miami who says he also sent \$100 to New Orleans to Pop Marullo to be wagered

Pop Marullo MADE THE SAME MISTAKE that Elmer made here and the Man in Miami received a check for \$1,545 for his friend's error.

So why should Pa Stribling—there, I let out the name of the Man in Miami—worry about a fight or two being called off when his friends insist on fumbling money back to him?

### THE NEW HEAVY.

The new heavyweight in the Stribling entourage, Michael Maurer, had his first fight in America the other night and knocked out Jeff Carrol at Biloxi, Miss., in the fourth round.

Pa writes the giant German made a fine impression and will be matched in the same ring soon with Jack

Sports scribes of the Western league have succeeded in changing the nickname of the Pueblo "Steelworkers" to the "Braves." The former name presented difficulties in writing Braves."

What "we boys" ought to do in the Southern league is ret rid of "Lookouts" and "Travelers" as well as change the names of the towns of Chattanooga, Little Rock, Birmingham

Six games were played here today in the eighth district basketball tournament. When the games were done Carnesville. Elberton and Loganville were established as the favorites.

In the first game Athens eliminated Bogart, 33 to 17, in a fast, well-played game. Mansfield followed Bogart out, losing 29 to 23 to Daniels-ville. Hartwell swamped Royston, 24 to 9.

### Lou Magnolia Declares Scott Was Not Fouled

By Lou Magnolia,
Referee Sharkey-Scott Fight.
RINGSIDE, MIAMI BEACH, Fla., Feb. 27.—I stopped the fight
between Jack Sharkey and Phil Scott here tonight and awarded it
to Sharkey on a technical knockout in the third round because
Scott would not go on fighting. There was no foul punch that
dropped Scott at any time during the nearly three rounds that the
affair lasted. Every blow with which Sharkey dropped the English
champion was landed in fair territory.

Twice Sharkey did land punches that were a bit low, but they
were not low enough to be classed as foul blows.

When that third knockdown came about the middle of the
round and Scott went down writhing and squirming and the cry
of foul was hurled from his corner, I waved Sharkey to his own
corner and motioned for Scott's seconds to enter the ring and get
him to his corner, where he could be examined by the boxing commission's physician.

RINGSIDE, MIAMI, Fla., Feb. 27.

(P)—The crowning touch to one of the biggest fight fiascoes in many years was applied tonight when Jack Sharkey, the generally recognized American heavyweight champion, was declared the winner over Phil Scott, pale British titleholder, on a technical knockout in the third round of a 15-round match.

After scenes of extraordinary confusion and following the granting of a minute's rest to Scott on a claim of foul, Sharkey's hand was lifted in victory by Referee Lou Magnolia as the pale Briton, weak and manifesting extreme agony, refused to continue the bout. The finish came with Scott still erect but reeling helplessly into the ropes after absorbing a terrific left hand punch to the stomach.

Sixteen basketball squads, the strongest produced in the Southern conference this season, await the bell this afternoon in the tenth annual championship tournament at the audit

Sewanee and North Carolina State, the latter champions last year, start the big show at 1 o'clock this afternoon on the auditorium floor. And from 1 o'clock to far past 10 o'clock, the new pine boards will be pounded by the desperate charge and

counter-charge of perfectly drilled teams.

Eight games will be played today and by the simple process of elimination only eight teams will remain in the race by bedtime. Eight of the fast field will taste the quick sharp defeat that means disappointment and an early return home. There are no tie games in basketball.

Coaches agree that this is the fastest field that has contested for the

title in all the 10 years of the collegiate classic. The four "heat le determined on a consensus vote eof coaches are Alabama, Duke, Washington & Lee and Kentucky. These teams finished with percentages of .818 or better. The Crimson Tide, for instance, did nothing but win every one of its 10 conference engagements, which is a record beyond all carping criticism. Coaches also rated Tennessee, North Carolina State, and Georgia as exceptionally strong teams that might have finished even higher in the list in a year that did not produce so many unusually clever quintets.

unusually clever quinters.
Following Sewanee and North Carona State on the matinee bill come Ole Miss and W. & L., Alabama and Clemson, Tennessee and V. M. I., L. S. U. and Duke at one hour intervals. With almost no effort one can see that three of the "favorites"—
W. & L., Duke and Alabama—play on the matinee card which should

commend it strongly to the public.

TEAMS WORKOUT.

Teams that arrived yesterday took workouts on the courts at Georgia Tech and at the Atlanta Athletic Club by way of limbering up. No team is allowed to practice on the tournament floor until regular play starts.

Officiating in tournament games always has been of a high caliber and this season should prove no exception. Stanley Sutton, who has been an official here at each renewal of the went, again will be in action. With him are Bernard Eberts, of Washington, D. C., and George Wood, of Jacksonville.

Pretournament conversation in hotel lobbies indicated that the public considered Duke's Blue Devils to have the best chance of winning provided Joe Corson, the star center, was able to start. If he is out, the Blue Devils will be hard pressed to live up to their reputation for extreme speed and sure shooting. Washington and Lee, Kentucky and Alabama are highly regarded. This was the announcement made this morning by Coach Earl McFaden, who has been conducting spring training on Drake field. Closing the work on March 7 will mean that the aspirants to positions on the Tigers' 1930 gridiron eleven will bring to an end five weeks of intensive work.

Most of the spring drills have been devoted to fundamentals which should mean that the 1930 Plainsmen will show noticeable improvement next season in blocking and tacking. The offense has come in for only a small part of the practices as Coach McFaden has only issued drills to the Orange and Blue lads that will aid them next season regardless of their mentor.

them next season regardless of their mentor.

TWO STRONG TEAMS.

Coach McFaden has used two strong teams in the scrimmages. Both elevens are composed of a large number of sophomores. Sophomores are expected to be quite evident in the regular lineup for the Plainsmen next season as they are working hard under McFaden, and have already shown more ability than some of the players awarded letters for the 1929 season.

J. M. Bassett and Tom Brown are two graduates from the frosh team who are almost sure starters in the backfield for the 1930 Tigers. Both were outstanding on the frat eleven and were very instrumental in giving Auburn the best record made by her rodent team in several years. They have been the shining lights among the ball carriers out for spring training as they have skirted the ends, thrown passes and hit the line for long gains against strong opposition. Both entered the Cornerstone with brilliant prep school records and have already made it known that they expect to make a much better record while wearing the Plainsmen colors on the gridirons.

SOPHOMORE BACKS.

It would not be surprising to see a sophomore backfield working for the

Will Start Saturday at
Almand Park.

Kid Elberfeld, former Southern
league baseball manager, will arrive
in the city tonight and Saturday morning he and Tubby Walton will start
to the second annual Walton-Elberfeld
sechool. The two weeks' school will
be conducted at Almond Park and extensive preparations have been completed at the park within the past
two weeks.

More than 100 applications for the
school have been received. Coach
Frank Anderson and his Oglethorpe
Petrels have indicated their intention
of attending every session of the
school.

According to present plans, two
classes will be held daily, one at a

at 2:30 o'clock in the afternoons.

The school was first attempted last October at Spiller field at the end of the baseball season and more than 75 ambitious young baseball players took advantage of the opportunity to learn the fine points of the game. R. J. Spiller, business manager of the Atlanta Crackers, signed three of the youngsters and two others signed up with other clubs, making a total of five players to secure professional trials?

A large number of the applications are from out-of-town youngsters who will work here for two weeks in the hopes of landing a tryout with some professional club this spring.

afternoon if the typical spring zenturer continues.

The tentative regular mne is composed of Hodges, left field; Kaley, catcher; Crawford, center field; Newton, first base; Burt, right field; Lloyd, third base; Riley, second base; Lewis, shortstop; Prim and Çarter, pitchers.

## HEED THE WARNING

Every dangerous curve, every cross road, every railroad crossing along the highway is marked with a danger signal and only fools fail to observe them. But how much more important it is to protect yourself and loved ones against the results of travel accidents. Have you thought of that and have you made provision?

You fathers and mothers who love your families this advertisement is a warning to you. Just as you observe the danger signals along the highways so should you heed this warning and follow this advice before it is too late.

Travel accidents are on the increase. The train, the street car, the taxicab, the bus, the automobile, the steamship each daily add their toll. The killed and the injured mount into the thousands every year. Who knows, you may be a victim. What

WESTERLY.

The trade movement took a westerly course through back streets lined with the sagging, storm racked negro shanties and continued toward the Dade county fairgrounds in an outlying section of town on the reclaimed edge of the Everglades. There the Madison Square Garden Corporation had erected its southern trading post under a contract to furnish the merchants and hotel men of Miami with one big prizefight attraction every winter for five years, this being the first of the five.

At 6 in the evening the white funnels of the announcing system, suspended over the ring amid the bucket reflectors of the lighting battery, broke off in their awful bawling of an uncommonly stupid phonograph record and then let five a call to all uppersure and then let five a call to all uppersure and then let five a call to all uppersure and then let five a call to all uppersure.

ord and then let fly a call to all ushers and ticket takers to assume their stations.

First customers in the ringside appeared about 6:45, a man in gray suit and gray hat and a lady in bullfrog green. A delegate from the press section pounced on them and came back breathless with an engraved card reading "Mr. and Mrs. Craig Biddle, Pencedale, R. I."

There were only a few hundred patrons at 7 o'clock, most of them in the \$5 zone, back at the rim of the shallow wooden saucer. The menacing drone of the flying halfwit who always dips in low-scooping flights over openair prize fights held in inflammable stadia had not yet appeared but the sound of his engine droning low would have been a relief, at that, from the atrocious squawks of the phonograph records, magnified a thousand times.

Trevor Wignall, one of the English sport writers, who came all this way to cover the fight, reported that Phillip's mood was one of mischief and cheer.

CHIPPER.

"I never saw him so chipper before," Mr. Wignall said. "He spent
part of the afternoon ringing up strangers on the telephone and pulling their
legs. He would address them in a
falsetto, feminine voice, saying 'Guess
who this is?' Wall of course they ansetto, reminine voice, saying 'Guess who this is?' Well, of course, they couldn't guess and Phillip would lower his voice and yell 'It's Phil Scott, and I'm going to knock out Jack Sharkey th's evening.' Then would ring off. It was most extraordinary, really."

Tommy Loughran and Pierre Charles, the simi-finalists, whose bout was scheduled as a 10-round chaser after the main event, weighed 191 and 209, respectively, a pickup of five or six ponnds for Loughran. Victorio Campolo weighed 226 to 195 for Johnny Itisko, his opponent in the second ten-rounder. Jimmy Maloney and Moise Bouquillono, of France, also under contract for ten rounds, weighed 198 and 185.

Pushing my ball to the right on iron shots has given me more worry than any other single fault in my game. It is no longer a habit, for I have conquered it to the point where it comes to trouble me only occasionally. But even occasionally is too much for any golfer who engages in tournament play 10 months in the year.

I found that the basic cause for my difficulty was that my right hand was too much on top of the shaft. The right hand should be a little under rather than too far on top of the shaft. ### OAKLAND-PONTIAC

now offers Atlanta's car owners a new high standard of efficient service

E invite the motorists of Atlanta and vicinity to visit and inspect what we believe is one of the finest automotive service institutions in the entire South.

Prior to the announcement of our appointment as Oakland-Pontiac dealers in Atlanta we made a close study of our facilities. It was our desire to find ways of raising still higher the standard of Oakland-Pontiac service.

As a result of this study, numerous changes have been made throughout the plant. The layout has been altered to provide still greater convenience of entrance and exit. More efficient service facilities have been provided. The entire building has been remodeled. New tool equipment has been installed and the latest factory methods have been adopted.

Another feature of importance is the special training given the mechanics employed by the Oakland-Pontiac Company of Atlanta. These men are specialists in Oakland-Pontiac service, and their already long experience is constantly supplemented with regular in-struction by factory experts. This training, which consists of lectures, actual demonstra-tion and illustrated films is only available to Oakland-Pontiac dealers.

In addition to this special training these men have the advantage of using special tools and equipment, without which high quality precision workmanship on Oakland and Pontiac cars is impossible. They also have special training in the maintenance of Fisher bodies—how to service wood-and-steel body frames, replace glass, recover tops, straighten bodies and fenders, and do painting and touch-up work.

And a further assurance of quick, efficient service and added motoring satisfaction is our stock of many thousands of dollars worth of genuine Oakland-Pontiac parts.

If you have not yet seen our plant and shaken hands with the members of our organization, we trust you will do so at your first opportunity. Don't hesitate just because you are not ready to buy another car. Come anyway and enjoy our fine display of the New Oakland Eight and the New Series Pontiac Big Six. Hear the details of the new Owner Service Policy and our standard 3-Point Adjustment Plan. You will agree, we are sure, that in service, as in all-round motoring value, Oakland-Pontiac has much to offer.

The New Oakland Eight, \$1045 and up. The New Series Pontiac Big Six, \$745 and up, f. o. b. Pontiac, Mich., plus delivery charges. General Motors Time Payment Plan available at minimum rate, (m)

In several of the camps over the south the men already present are reported to be in great form and while some of the more prominent stars are still missing, the work will increase each day.

Manager Jewel Ens, of the Pirates, unounces that within a few days his men will be sent through double work and the sent day instead of the usual afternoon session.

Salary rows in many of the camps are expected to be settled within a short time and everything will be working smoothly soon.

the first-named four as the participants.

Hugh Stubbins, who startled the field at the Flats by turning in a 10.2 time for the century recently, is counted on to capture points in the 60-yard dash for freshmen. Considering the fact that Stubbins is a yearling and that it is early in the season, Stubbins is reckoned as one of the brightest prospects seen in some time for the short events.

Williams and Shields will also enter the Chapel Hill frosh dash, with Shields doubling in the 60-yard high hurdles. Pearce, Gegenheimer, and Clarke have been named for the three-quarter-mile run and Shields named as a possible starter in this event. With the exception of Stubbins, 'all the yearlings have been put the blanks as a mile relay team with showings in carly events to be used as the basis of the final starting choice.

### Western Heights Defeated, 24-21

Western Heights basketball team Western Heights basketball team lost a good chance Thursday to grab the lead in the Dixie league of the Y. C. A. A. In the opening game the Alpha class had defeated the leading Peachtree Christian quintet, 28 to 19, but the never-tiring and always hustling squad of the Vanguard class came from behind and spoiled the hopes of Western Heights by forging ahead with a victory by a 24-to-21 score. After a very slow start Clarkston managed to get a small decision over Clifton Presbyterian, 16 to 14.

Clarkston managed to get a small decision over Clifton Presbyterian, 16 to 14.

Alpha class started scoring at the start and ran up eight points before Peachtree could come back with five counters. Alpha always held a 'small iead, but increased this in the last few minutes. Nash followed up his shots well and contributed nine for the winners. Lovelace played well in the last frame, but the guarding of Fowler and Underwood always hindered the shooting of the losers.

Western Heights looked like a winner in the first few minutes of play, grabbing a lead, but the Vanguard class was on its toes and only trailed by a 13-to-9 score at the half. Vann cut loose with some accurate shooting in the final frame and evened the score. The Vanguards finally won an uphill battle, 24 to 21, due mostly to the fast playing of all.-Vann, Gibson and Brown never let up. Nichols counted for 10 points of the losers, but Western Heights appeared too nervous after the score was tied.

(Former Pitcher New York Giants.)
One of the most peculiar superstitions among ball players is the "resin bag" superstition.
Until the last few years almost every pitcher carried a little bag of powdered resin in his hip pocket to give him a better grip on the ball.

The American league passed a rule eliminating the use of foreign substances altogether, while the National league provides a bag for resin that is laid on the ground in back of the pitcher.

Many of the pitchers believed that the resin had much to do with their success and carried it under their shirts for luck.

Eddie Collins and Hal Chase always came up to bat with a wad of chewing gum on the button of their caps. When two strikes were called they would remove the

gum and chew vigorously.

Chuck Klein, the Philly slugger, belongs to that fraternity who think it bad luck to walk near the bases. He refuses to stride across the infield while going to the bench from the outfield, and vice

BLASTS ARM STORY.

In a conversation with this reporter at Chattanooga this week Kenns blasted the story that Ivy Griffin couldn't throw. "He threw to third all right last year," said Kenns. "He had some trouble with his arm which equased him to be a bit slow on a throw across the diamond but he got lietter at the close of the season. His throws were all right. None of them were too slow. He is a fielding fool about that bag and Southern league fans will like him. I am sure his arm will like him. I am sure his arm will be all right. The warm weather at the training camp should fix him up."

Kenns thinks that Ed Brown and Frank Luce, the latter the property of the Vols, will be two of the greatest hitters in the league. Brown has already signed an Atlanta contract. He was a .350 hitter with Toledo. Luce, with Milwaukee last year, is a holdout, refusing to report to Nashville. He is expected to sign and when he does Kenna declares the league will have two real hitters.

Rodgers Is Wild,
Says Joe Engel.

Joe Engel, whose new Chattanooga ball park is going to be the pride and joy of the league, says that "Raw Meat Bill" Rodgers, his new manager, will startle the fans out of their seats this year.

Rodgers came to the league two seasons ago with Little Rock. He was ballyhooed as one of those wild hen on the coaching lines. Boys who had been out to Joe's house the night before stayed away from the park when Bill Rodgers came to town. They didn't want their nerves shattered.

LIKE A LAMB.

But Bill Rodgers was as calm as Mary's Little lamb and not half as frisky. He was nothing like a loud speaker. He was just another guy out there on the lines.

Joe Engel explains all that. "Rodgers and Allen differed shortly before the season started," said Engel. "He knew he was to be there but a short time. He didn't have any pepper but he will have this year.

"If your nerves are suffering from charred kegitis don't come to the ball park when Bill Rodgers is in town with the Lookoutz," says Joe.
